A brand new album "Turquoise Planet" from the keyboard-wizard, Esa Kotilainen is available on Presence Records label. Esa's work in Finnish music scene is well known during last four decades. He was part of Tasavallan Presidentti and Wigwam in the 70's, played on Wigwam's legendary Nuclear Nightclub-album and on two Wigwam's latest albums, Titan's Wheel and Some Several Moons. He've also had collaborations with many general Finnish artists like Hector and Jukka Tolonen. He's 70's classic soloalbum was Ajatuslapsi (1977) and this continues the story bringing his ambient atmospheres to more global level.
